

# EPIQ 5/6

The new EPIQ 5/6" for both 5" and 6" housings combines smart versatility, with high CRI and affordability. Upgrade to a modern square look with simple click-on trims, available in three finishes, in smooth or baffled insets.

## Performance

- Versatile and affordable family that includes eleven retrofit options for a regressed round LED downlight; and square trims in three finishes that quickly and easily click on for a completely different look
- High CRI (90+) retrofits are dimmable with most standard incandescent (triac) and low voltage electronic dimmers (5-100% light control)
- ENERGY STAR pending

## Construction

- Metal core PCB with aluminum heat sink and 99% diffuse reflecting cone for optimum longevity and light output
- Stamped aluminum with durable baked enamel finish trims
- Click-on trim options are injection molded heavy-duty plastic with polyurethane finish for a strong, wear-resistant surface
- Frosted polycarbonate lens diffuses light

## Installation

- Fits most standard 5" and 6" recessed cans
- cETLus Listed for Type IC and wet locations
- Pre-set for 6" can installation - slide torsion spring mounting brackets towards light module to adjust for use with 5" cans (requires only 4" high clearance)
