Installation Steps

Turn off the power at fuse or circuit box.

1. Tighten the metal frame onto the fixutre body, then install the remainder.

2. Attach the threaded pipe to the mounting strap, and then secure it with a washer and a hex nut.

3. Attach the mounting strap to the outlet box by using two mounting screws.

4. Secure the top loop to the threaded pipe.

5. Secure the tube onto the stem of the fixture, thread fixture wires through threaded tube and end of loop first.

6. Connect the chain:
   - Determine length of chain needed to achieve desired fixture height.

   ---Connect the ribbed-coated wire (unmarked) from the fixture to the white wire from the power source.
   ---Attach the fixture grounding wire to the mounting strap with the green grounding screw, and then connect it to
   the house grounding wire with a wire connector.
   Carefully put the wires back into the outlet box.

11. Attach the canopy to the mounting strap by inserting the top loop, and then secure it with the collar.

12. Attach the glass shades to the glass holders, then secure them with support rod.

13. Install 5X60W Max medium base bulbs (not included). See relamping label at socket area or packaging for maximum
